## Design Document

- **Name of the business or organization:** TUTUTU
- **What the business does (i.e., what is its product/service/mission):** This business focuses on Design, including graphic, motion, and architecture, but it will also organize the non-profit art exhibition and the art education.
- **Who is the target demographic of the business?** There are two kinds of products for this business, design and art exhibition. Therefore, the target demographic are 1) the company that needs design plan for them 2) the artists who want to have an exhibition
- **How is the website going to help the business make money/be successful?** It allows the customers to know the basic style of this team and if they are interested, they can leave their messages.

- **Sketch of home page design.**

## Questions

**What was the easiest part of this assignment?**

The easiest part for me is to draw a simple layout of the web design, like the tone, composition, and the logos, and the image is kind of easy for me since I can use my own design and my own images.

**What was the most challenging part of this assignment?**

I spend a lot of time to make the alignments and the compositions (adjusting the styles in CSS), and another thing that is challenging for me is to make up the information and the text materials.
